

Let's Talk About Your Child's Smile!

Early intervention can make a big difference. If your child is between the ages of 7 and 12, it's a great idea to schedule a consultation for orthodontic growth and development. This can help us spot any potential issues early on to ensure their adult teeth grow in beautifully!

Free EXAMs - starting at age 7 to help identify:

- severe crowding or spacing issues
- growth & development issues
- bite issues
- impacted teeth
- missing teeth
- airway or speech concerns

Early detection can assist with:

- Better Oral Health
- Avoiding permanent teeth extractions
- Avoiding impacted teeth
- Allowing for proper jaw growth
- Increased Self-Esteem
